Professional Summary

Growth and monetization operator with experience across digital publishing, AI/ML data products, and the early-stage startup ecosystem. Currently in the Founder's Office at **LH2 Holdings**, driving 0→1 monetization across 35+ U.S. content properties – hands-on across subscription systems, payments, GA4 instrumentation, newsletter growth, and funnel optimization.

Experience

LH2 Holdings – Founder's Office (Growth & Monetization)

July 2025 – Present

Digital Media Portfolio Company | Bangalore, India

- Drive growth, monetization, and operations across U.S.-based digital media portfolio of **35+ content properties** – including Inquisitr, AllMusic, Shark Tank Blog, Vintage Aviation News, and F4WOnline, generating ~50M monthly sessions.
- Launched “**Go Ad-Free**” subscription on Shark Tank Blog (\$1–2/month) with Stripe-first checkout, SSO / Google One Tap login, ad-suppression logic, and a custom WordPress membership plugin.
- Instrumented end-to-end GA4 conversion funnels and Stripe webhook tracking across 4 publishing assets, improving payment visibility and unit-economics reporting.
- Built newsletter monetization workflows from scratch through media partnerships and content syndication; scaled one publication to **20K subscribers in 3 months** and delivered the first \$1K of newsletter revenue within 5–6 months.
- Optimized monetization and ad funnels across the portfolio, contributing to a **10%+ uplift** in revenue through pricing experiments, CTA placement tests, and audience segmentation.
- Ran competitive pricing analysis (e.g., F4WOnline \$14.99/mo vs. Fightful \$5.99/mo) to inform subscription pricing and feature prioritization.
- Tools:** Python, FastAPI, Google Apps Script, GA4, Stripe, PayPal, WordPress, Mediavine, Raptive, Jira, Claude Code.

Opinium.ai – Data Analyst (Founding Team)

July 2024 – April 2025

AI/ML Social & News Intelligence Startup | Delhi, India

- First employee at Opinium.ai, an AI/ML-powered social media and news analysis platform helping brands track identity, visibility, and emerging trends across digital channels.
- Raised ~**40 Lakh** pre-seed funding at ideation stage from **T9L Qube Studios (Delhi)**; built the product from 0→1 over a **10-month** period across data, product, and engineering functions.
- Company wound down following product-market fit challenges; gained end-to-end exposure to building and shipping an AI product before shutdown.
- Designed NLP and LLM-based pipelines to analyze engagement patterns, sentiment, user behavior, and topic trends across large-scale social and news datasets.
- Built graph-based user-interaction models in **Neo4j** to surface behavioral relationships and engagement clusters across networks.
- Tools:** Python, SQL, PostgreSQL, Neo4j, NLP, LLMs, LangChain, Elasticsearch.

PedalStart – Startup Analyst

Aug 2023 – June 2024

Early-stage Startup Accelerator | Gurugram, India

- Led startup evaluation and onboarding pipelines; assessed **500+ startups** across product, market, business model, and growth potential.
- Worked directly with founders on go-to-market (GTM) strategy, growth positioning, partnerships, and investor readiness.
- Managed operations and engagement for a **200+ founder community** through structured programming, mentorship matchmaking, and networking initiatives.
- Coordinated ecosystem events across Bangalore and NCR, enabling founder-investor matchmaking and deal-flow generation.
- Tools:** Excel, Google Sheets, PowerPoint, Python.

Cyntra – Business Associate, Investor Relations

April 2023 – July 2023

Early-stage Startup | Noida, India

- Conducted market and investor research to identify strategic fundraising opportunities and industry trends.
