SUMMARY

Startup operator driving growth at the intersection of AI, data, and digital media. Experienced in scaling revenue and traffic for U.S. based publishing portfolios, building ML/NLP pipelines, and leading cross-functional teams across Product, AdOps and SEO. Thrives in founder adjacent roles that demand both strategic thinking and hands on execution.

EXPERIENCE

Founder's Office

July 2025 – Present

LH2 Holdings

Bangalore, India

- Led growth and revenue strategy for U.S.-based publishing websites, aligning AdOps, SEO, content, and tech efforts across cross-functional teams.
- Owned full funnel performance management, scaled traffic and revenue via AdOps and SEO optimization, marketing, Google Discover, and newsletter and data driven experimentation.
- Built in house automation and AI-powered systems to improve decision making, performance monitoring, and revenue operations.
- Acted as SPOC for partner founders, leading onboarding, monthly reviews, and strategic planning cycles.
- **Tech stack:** Python, LLMs, GA4, GSC, AdOps Platforms, Jira, WordPress, Google Sheets.

Data Analyst – Founding Member

July 2024 – Apr 2025

Opinium.ai (AI B2B SaaS)

Delhi, India

- Collaborated with founders and shaped AI product strategy based on customer discovery—aligned offerings with investor expectations during pre-seed discussions.
- **Established the Data Science team** of 5, creating end-to-end processes for data ingestion, model development, and deployment.
- Developed and deployed machine learning models for social media data analysis, to perform **sentiment analysis, engagement analysis and topic identification** using NLP and transformer based large language models (LLMs).
- Designed graph-based models using **Neo4j and Graph Neural Networks (GNNs)**, enabling better detection of user interaction patterns across social media platforms.
- **Tech stack:** Python, NLP, LLMs, Hugging Face, LangChain, Ollama, Elasticsearch, PostgreSQL, Neo4j, Graph Neural Networks, Transformers.

Startup Analyst

Aug 2023 – June 2024

PedalStart (Startup Accelerator)

Gurugram, India

- Led a team of 4 to **develop a startup onboarding evaluation process**, evaluating 500+ startup applications based on team, product and market fit – onboarded 50 for accelerator.
- Managed a community of **200+ startups**, organizing monthly knowledge-sharing sessions and networking events, increasing community engagement.
- Worked closely with founders to refine GTM and investor pitches, resulting in **15%+ securing partnerships/funding**.
- Coordinated large-scale networking events in Bangalore and Delhi NCR, each **attracting 100+ attendees**, fostering partnerships for 15% of participating startups.
- **Tools:** Python, Microsoft Excel, PowerPoint, Canva.

Business Associate – Investor Relations

Apr 2023 – July 2023

Cyntra (IT Solutions)

Noida, India

- Conducted market research on investment trends, analyzing industry reports to identify high-potential investors, **securing meetings for funding discussions**.
- Developed pitch decks and financial models.
- Identified and coordinated participation in industry networking events, resulting in **strategic partnerships for Cyntra's tech integration solutions**.
- **Tools:** Python, Microsoft Excel, PowerPoint, Google Sheets for financial modeling.

EDUCATION

Indian Institute of Technology Kanpur

Kanpur, India

Bachelor of Science in Earth Science (Major)

2018 – 2022

MBA in Industrial and Management Engineering (Minor)

TECHNICAL SKILLS

- **Product Development:** MVP development, GTM strategy and Testing.
- **Business Strategy:** Market Research, Business Modeling, Pitch Deck Creation.
- **Data Analysis:** Social Media Analytics, Sentiment Analysis, NLP, LLMs.
- **Community Management:** Stakeholder Engagement, Event Coordination.
- **Tech Stack:** Python, SQL, HuggingFace, LangChain, Neo4j, PostgreSQL, Transformers.

COURSEWORK

CS50's Intro to AI with Python • Hugging Face – Intro to AI Agents • Functions, Tools and Agents with LangChain
