

MOHNISH NAGAR

Growth, Product, and Monetization Operator

+91-9555864171 • mohnish238@gmail.com • linkedin.com/in/mohnishnagar • Bangalore, India

Summary

I am a growth, product, and monetization operator with over 3 years of experience in digital media, AI/ML products, and startup ecosystems. My expertise spans subscription monetization, funnel optimization, and analytics instrumentation. I have a proven track record in driving revenue growth and optimizing conversions for high-scale consumer internet brands.

Experience

LH2 Holdings

Bangalore, India

Founder's Office, Strategy & Ops

07/2025 - Present

Digital Media Portfolio Company

- Working at a media publication holding company managing 35+ content assets with 50M monthly sessions across monetisation, AdOps, content, growth, and operations.
- Led growth, monetization, and operations across content properties including Inquisitr, AllMusic, Shark Tank Blog, Vintage Aviation News, and F4WOnline.
- Launched the "Go Ad-Free" subscription on Shark Tank Blog (\$1-2/month) end-to-end. Stripe-first checkout, SSO / Google One Tap login, ad suppression logic, and a custom WordPress membership plugin.
- Implemented GA4 event tracking, Stripe webhook instrumentation, and conversion funnel analytics across 4 publishing assets
- Built newsletter acquisition and monetization workflows, scaling one publication to 20K subscribers in 3 months and generating first \$1K revenue within 6 months
- Worked on subscription and monetisation models across 4 publishing assets with a cumulative 5-6M monthly sessions, setting up payment infrastructure, tracking systems, UI flows, and business models.
- Worked across Stripe, PayPal, GA4 event instrumentation, conversion tracking, and analytics setup to improve payment visibility and user funnel insights.

Opinium.ai

Delhi, India

Founding Data Analyst

07/2024 - 04/2025

AI/ML Social & News Intelligence Startup

- First employee at Opinium.ai, an AI-powered social and news intelligence platform for trend analysis and digital identity tracking
- Contributed to building the product from 0-to-1 across product, data, and engineering functions over a 10-month period
- Designed NLP and LLM-based pipelines to analyze engagement patterns, sentiment, user behavior, and topic trends across large-scale datasets
- Supported product strategy, feature prioritization, and user insight generation for social intelligence workflows
- Company raised approximately INR 40 lakh in pre-seed funding during ideation stage before winding down following product market fit challenges.

PedalStart

Gurugram, India

Startup Analyst

08/2023 - 06/2024
